*.... Thank you Peter and Judy for your hospitality. We really enjoyed our time staying at Sisters Beach. We particularly liked the peace and quiet, and all the wild life around your property. Highly recommend anyone to stay here.

.... We stayed for 4 nights and had a fantastic time. The kids loved watching the wallabies, the outdoor space and the closeness to the beach. We enjoyed the peace and quietness. The house was very clean and all the essentials were there. We will come back! Anabel

..... Loved our stay at Peter and Judy's cottage. It was our little 'home away from home' in a beautiful, peaceful bushland setting, so lovely to come back to after a day's exploration in Tassie's amazing North West area.

.... Peter and Judy's place was a haven after some difficult days traveling. It is everything their description says it is. I would not hesitate to recommend this cottage to anyone looking for a quiet place in a perfect location.... John

..... Thank you for this little retreat from a busy life. Your house was great. Heaps of privacy, a good local store that does a nice evening meal and the beach is only 10 minutes walk. Bernadette & Geoff

... We loved the look of Judy and Peter's cottage when we found it on airbnb but we were gobsmacked when we got there. It was the nicest place that we stayed during our 2 weeks in Tasmania. The setting in very Australian native bush and it even featured a couple of friendly wallabies ... We will definitely stay there again when we return and for a longer period this time as Sister's Beach is jaw-droppingly beautiful. We couldn't recommend it more highly.
